Mission Statement of FFL and GTRTL

*"Safeguarding the Right to Life in
Culture & Law"*

We believe every human being is created in the image of God. From the immeasurable dignity which comes from that creation, every person, born or unborn, regardless of the circumstances of their conception or the perceived quality of that person's life, has an inalienable right to life from moment of conception to the moment of natural death.

Jennifer Christie

Jennifer's story will negate the notion that rape is justification for abortion when she shares her testimony. Her story is a riveting and emotional account of how life is valuable no matter the circumstances of conception.
